DETAILED ACTION

Claims

1. Pursuant to entry of the amendment in the 03 March 2005 response ("the last response"), claims 1-11 and 13-18 are pending. Claims 12 and 19-34 were cancelled.

Rejection Withdrawn

2. The rejection of claim 12 as unpatentable over Kertesz (DE 4405409C1) in view of Sadler (GB 2258767A) and Shida (US 4,481,262), as set out in section 9 of the 09 December 2004 office action ("the last office action"), is cancelled in view of the claim amendments in the last response.

Rejection Maintained

3. The 35 USC 103 rejection of claims 1-11 and 13-18 as unpatentable over Kertesz with Sadler and Shida, discussed above, is maintained for reasons of record.

Comment re: Amendment to Claim 1

4. Applicants did not present a marked-up copy of amended claim 1 in the last response.

Response to Arguments

5. Applicant's arguments filed in the last response have been fully considered but they are not persuasive.

On page 5 of the response, applicants summarize the 35 USC 103 rejection of claims 1-18.

The examiner does not take issue with the statements made on page 5.

On page 6, applicants argue that the outer layer in Kertesz's hose contains a polyolefin or a polyamide and that applicants' outer layer does not include a polyamide.

However, applicants are arguing an unclaimed limitation. See MPEP 2145(VI).

Page 3

Applicants do not exclude polyamides from the outer layers of their tubes.

Recitations of "comprising" (claim 1, line 2) and "constructed of" (claim 1, line 9) are not tantamount to the use of "consisting of" in either passage in claim 1, so that the resins recited in claim 1 need not be the only polymers in the tube's inner/outer layers.

On page 6, in the penultimate paragraph, applicants argue that they specifically preclude the use of polyamides in their outer layer.

However, the claims are not so limited. See MPEP 2145(VI).

Final Rejection

- 6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
- 7. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Art Unit: 1772

Conclusion

Any inquiry concerning this communication should be addressed to Sandra M. Nolan-Rayford, at telephone number 571/272-1495. She can be reached Monday through Thursday, from 6:30 am to 4:00 pm, ET.

If attempts to reach the examiner are unsuccessful, contact her supervisor, Harold Pyon, at 571/272-1498.

The fax number for patent application documents is 703/872-9306.
